

AI Usage DISCLOSURE FORM

1. Team Details

Team Name: APPLE

Project / Product Name: FIXORA– AI-Guided Device Troubleshooting Platform

Organization / Institution (if any): VIT Vellore

Submission Date: 29.09.2026

2. AI Usage Declaration

Did your team use any Artificial Intelligence (AI) in developing this project? Yes / No

YES

3. Purpose of AI Usage (Brief Details)

Idea generation / brainstorming : Yes , AI was used to brainstorm the project concept.

Code generation or assistance : Yes , AI was used to assist with frontend/backend code development and implementation of selected prototype components.

UI / UX design : AI was used for limited assistance in refining the UI structure, user flow, and layout ideas.

Content creation : Yes – AI was used to assist in preparing troubleshooting instructions

Data analysis : No

Testing / debugging : No

Other _____

4. Feature Origin Classification (Please add/delete based on the number of the feature)

Feature 1 — AI Troubleshooting Recommendation

Self-Generated/AI-Generated/Both: Both

Description:

The team designed and implemented the troubleshooting recommendation feature. **Claude**

and **Chat gpt** was used for limited assistance with understanding the implementation approach and refining code logic. The team reviewed the suggestions, implemented the feature, tested its behavior, and modified the code according to the project requirements.

Feature 2 — Guided Troubleshooting Workflow

Self-Generated/AI-Generated/Both: Both

Description:

The team developed the step-by-step troubleshooting workflow that guides users through individual actions and verification. **DeepSeek** was used for limited assistance in understanding the workflow logic and resolving implementation-related questions. The team adapted the suggestions, implemented the workflow, and manually tested the complete user flow.

Feature 3 — Frontend UI / UX

Self-Generated/AI-Generated/Both: Both

Description:

The team designed and implemented the FIXORA frontend interface. **Antigravity** was used for limited development assistance with frontend implementation and code refinement. The team made the main UI/UX decisions, modified the implementation, and tested the interface to ensure that the required prototype flow worked correctly.

5. Ethical & Compliance Confirmation

AI usage complies with guidelines and policies. **Yes**

No proprietary or copyrighted data misused. **I Agree**

6. Declaration & Sign-Off

Name of Team Representative: Jaimie Sandra Sam

Role: Leader

Signature: Jaimie
